

Remote Notes for
Geoff.

I'll need to come in
remotely to a computer
and port forward @ router

Port	DATA TYPE	TARGET
13000	UDP	192.168.228
13001	UDP	"
13002	UDP	"
8000	TCP	"

THEN I CAN TAKE IT
GO.

Cables ^{are} ~~are~~ Labeled for
your 'insertion' pleasure.

Thanks again for the PJ2T
magic.
